PROFESSIONAL SUMMARY

Motivated and detail-oriented BCA student at Centurion University of Technology and Management with strong hands-on experience in full-stack web development, machine learning, and cloud computing fundamentals. Proficient in Python, JavaScript, Java, React, Flask, and MySQL. Demonstrated ability to design and deploy real-world applications including ML-powered tools, dashboards, and web platforms. Participated in competitive hackathons and continuously upskilling through industry-recognized certifications. Seeking an opportunity to apply technical skills and contribute to innovative software development projects.

TECHNICAL SKILLS

Programming Languages:	Python, Java, C++, JavaScript
Web Technologies:	HTML5, CSS3, React.js, Flask (Python), Spring Boot
Databases:	MySQL, DBMS Fundamentals, H2 Database
Cloud & DevOps:	Cloud Fundamentals (IaaS, PaaS, SaaS), AWS/Azure/GCP Basics, Linux, Virtualization
Data & ML:	Data Analysis, Machine Learning (Scikit-learn), Data Visualization
Tools & Others:	Git, GitHub, Blender, Unity, Microsoft Office, IoT Networking
Soft Skills:	Critical Thinking, Problem Solving, Teamwork, Creativity

PROJECTS

FITNESS ANALYZER — Flask + ML Fitness Intelligence App

Python, Flask, ML

- ▶ Built a Flask-based fitness intelligence application combining machine learning predictions, health tracking tools, and analytics with a cinematic frontend experience.
- ▶ Implemented ML models to analyze user fitness data and generate personalized health recommendations.
- ▶ Designed a responsive, animated frontend with interactive dashboards for health metrics visualization.

SHOPZONE — Full-Stack E-Commerce Web Application

React, Tailwind css, Axios, React Router DOM

- ▶ A production-ready, scalable E-Commerce platform built with the MERN stack.
- ▶ Features a complete shopping experience for users and a powerful admin dashboard — built following real-world industry standards.

ONLINE BANKING SYSTEM — Full Stack Web Application

JavaScript, Node.js

- ▶ Built a professional full-stack web application simulating real-world banking operations with secure, role-based access control for users and administrators.
- ▶ Implemented authentication, transaction management, and account management features.

COMPLAINT MANAGEMENT SYSTEM — Spring Boot MVC

Java, Spring Boot, H2

- ▶ Developed a Spring Boot-based complaint management system with MVC architecture, JPA integration, and database persistence using H2.
- ▶ Implemented RESTful endpoints for complaint submission, tracking, and status updates.

LUMINABLOG - Full-Stack Blog Platform With Comments

React, Vite, Tailwind, Axios, Node.js, Express.js, MongoDB, JWT, Bcryptjs, Multer

- ▶ LuminaBlog is a modern, production-style blogging platform built with the MERN stack. It supports authentication, blog publishing, comments, likes, bookmarks, dashboard analytics, Cloudinary image uploads, search, filters, and a premium animated dark UI..

FINTECH DASHBOARD — Expense Tracker

Python, Flask, HTML, CSS

- ▶ Developed a modern expense tracker web app with animated charts, authentication, dark/light mode, and cloud deployment capabilities.

FUTURISTIC DATA VISUALIZATION DASHBOARD

React, Vite, Tailwind, Three.js

- ▶ Created an interactive analytics dashboard for exploring CSV data with modern charts, 3D visuals, and AI-powered insights using React, Vite, Tailwind CSS, and Three.js.

TASKFLOW PRO - A production-grade, full-stack Task Management SaaS

React, Vite, Axios, Nodejs, Expressjs, SQLite, JWT

- ▶ Built a Node.js/Express backend with Prisma ORM for database operations and PostgreSQL.
- ▶ Implemented real-time features using WebSockets for notifications and live updates.

CERTIFICATIONS

IoT-Network Specialist Certificate Programme

Mar 2026 | 60 Hours

Reliance Foundation Skilling Academy | Skill India Digital Hub | NSDC

Critical Thinking in the AI Era

Feb 2026

HP LIFE | HP Foundation — Learned AI content evaluation, bias mitigation, and fact-checking strategies.

Data Science & Analytics

Feb 2026

HP LIFE | HP Foundation — Covered data science practices, methodologies, tools, and data-driven business approaches.

HACKATHONS & ACHIEVEMENTS

Codenexus Hackathon 2K26 — FESTRONIX 2K26

Feb 26–27, 2026

GIFT Autonomous, Bhubaneswar | Team: SegFault — Demonstrated creativity and technical skills in developing innovative solutions within competitive timeframe. Powered by Websocket Software Pvt. Ltd.

- ▶ Participated as team SegFault, building a real-world technical solution under time constraints.
- ▶ Showcased skills in full-stack development, problem-solving, and collaborative engineering.

EDUCATION

Bachelor of Computer Applications (BCA) — Computer Programming

Aug 2024 – Aug 2027

Centurion University of Technology and Management, Bhubaneswar, Odisha

Key Skills: Python, JavaScript, Java, DBMS, Machine Learning, Cloud Computing, React, HTML/CSS, Unity, Blender

Higher Secondary (12th Standard)

2024

Dalmia Vidya Mandir

Secondary (10th Standard)

2022

Dalmia Vidya Mandir

Open to internships, collaborations, and full-time opportunities in Software Development, Cloud Computing & Data Science.
